

NOTICE

GROTON WATER DEPARTMENT

SEASONAL WATER MAIN FLUSHING

The Groton Water Department will begin its annual flushing of the water distribution system on Tuesday, April 9th thru Friday, April 25th, 2019. All water main flushing occurs during the daytime only. We anticipate the flushing program will take approximately three weeks to complete. You will experience discolored water during the flushing effort and we apologize for this inconvenience.

In the event that you experience a prolonged period of discolored water, run numerous cold water taps for 5 to 10 minutes or until it clears up.

This is the time to thoroughly flush your hot water tank.

The water distribution system flushing program is subject to change without notice and the dates listed below are approximate only!

Please be sure to call our offices between the hours of 8:00 A.M. to 4:00 P.M. for the most up to date location of the Flushing Program or check our web site at www.grotonwater.org

Area 1 - April 9th, 10th & 11th: Martins Pond Road, Schoolhouse Road, Hemlock Park Drive, Orchard Lane, Chestnut Hill Road, Hollis Street, Champney Street, Middle School Complex, Main Street, Lowell Road, Lost Lake Drive, Fawn Terrace.

Area 2 - April 16th: Duck Pond Drive, Hidden Valley Road, Whiley Road, Boston Road, Forge Village Road, Hayden Road, Sandy Pond Road, Robin Hill Road, Quail Ridge Road, Stonebridge / Old Carriage Path, Gilson Road, Sunset Road.
